Institute of the International Association for Research and Testing in the Field of Textile Ecology (Oeko-Tex)

is granted authorisation according to Oeko-Tex® Standard 100 to use the Oeko-Tex® mark, based on our test report 1319876-168-14

Tested for harmful substances
according to Oeko-Tex® Standard 100
1076-169 DTI Denmark

for the following articles:

Woven fabrics for workwear made of 100% cotton, 100% polyester, 100% nylon and blends hereof, including blends with elastane, bleached, dyed and finished (including polyurethane coating), partly based on materials pre-certified according to Oeko-Tex® Standard 100.

The results of the inspection made according to Oeko-Tex® Standard 100, **product class II** have shown that the above mentioned goods meet the human-ecological requirements of the standard presently established for products with direct contact to skin.

The certified articles fulfil the requirements of Annex XVII of REACH (incl. the use of azo-dyes, nickel, etc.) as well as the American requirement regarding total content of lead in children's articles (CPSIA; with the exception of accessories made from glass).

The holder of the certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the Oeko-Tex® mark only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

This authorisation is valid until 28.02.2015

Taastrup, 11.02.2014
